

PRESS RELEASE

SCOTIABANK AND YOPLAIT **PARTNER IN THE FIGHT AGAINST BREAST CANCER**

Scotiabank Trinidad and Tobago Limited and Yoplait, exclusively distributed by HADCO Limited, continue to join forces in the fight against breast cancer in Trinidad and Tobago. Yoplait and HADCO's commitment to the cause was evident in their recent cheque contribution to the value of \$32,013.15 to the Scotiabank Women Against Breast Cancer programme.

During the entire month of October 2005, for every Yoplait that was purchased, HADCO Limited and Yoplait donated 15 cents towards the Scotiabank Women Against Breast Cancer programme. The Save Lids to Save Lives Nationwide Campaign, which was supported through the media and at the trade level, was a great success thanks to the support of Yoplait's loyal customers.

Scotiabank's Women Against Breast Cancer Project benefits thousands of women each year. The mission of the programme is "To ensure that every woman in Trinidad and Tobago who would like to have a Mammogram test can do so whether she can afford it or not."

The programme raises funds through its Annual Women Against Breast Cancer 5k, sale of memorabilia and Ladies' Charity Golf Tournament, all of which assist women across the nation in accessing mammograms and ultrasound tests. Since its inception eight years ago 5,616 women have benefited from the Scotiabank Breast Cancer Screening Programme and 3,469 from ultrasounds and mammograms.

Breast cancer is the most prevalent cancer around the world and the most frequent cancer found in women.

For further information, please contact Mr. Gilbert Sankar, Assistant General Manager, Sales and Marketing at 625-3566 Ext 2214.
