

THE BANK OF NOVA SCOTIA

EXTENDIBLE 4.05% FIXED COUPON NOTES (BAIL-INABLE NOTES) (CAD)

Due September 25, 2029 (Unless Extended)

September 11, 2024

Final Terms and Conditions

Issue
The Bank of Nova Scotia Extendible Fixed Coupon Notes (Bail-inable Notes) (CAD), pays coupons semi-annually, and is extendible semi-annually at the Issuer's option commencing on September 25, 2029, for an initial term of 5 years and a maximum term of approximately 15 years (the "Notes").

Issuer
The Bank of Nova Scotia (the "Issuer").

Trade Date
September 11, 2024.

Issue Date
September 25, 2024.

Repayment of Principal Amount
100.00% of the Principal Amount will be repaid on the applicable Maturity Date.

Coupon Rate, Coupon Payments and Coupon Payment Dates
The coupon rate is **4.05% per annum** (the "Coupon Rate"). A coupon payment will be equal to the Principal Amount multiplied by the Coupon Rate and divided by the number of coupon payments per annum (each a "Coupon Payment"). Subject to the Extension Feature, the Coupon Payments will be payable semi-annually in arrears on the 25th day of March and September (each a "Coupon Payment Date"), commencing on March 25, 2025 until the applicable Maturity Date. The Notes will accrue interest based on the Day Count Fraction with equal payments, without adjustment for period end dates. If a Coupon Payment Date is not a Business Day, the Coupon Payment shall be paid on the next Business Day, without adjustment for period end dates and no additional interest shall be paid thereon.

Extension Feature
The Notes are extendible at the sole and absolute option of the Issuer from the Initial Maturity Date to the first Extended Maturity Date and semi-annually thereafter to the next following Extended Maturity Date or the Final Maturity Date, as applicable, but in no event beyond the Final Maturity Date (the "Extension Feature"). Unless the Issuer provides notice in writing to CDS of its intention to redeem the Notes not less than fifteen Business Days prior to the then applicable Maturity Date of the Notes, the Issuer will be deemed to have exercised its option to extend the then applicable Maturity Date of the Notes to the next following Maturity Date. If the applicable Maturity Date of the Notes is not a Business Day, the Principal Amount shall be paid on the next Business Day, without adjustment for period end dates.

In the event that the Issuer gives notice to CDS of its intention not to extend the term of the Notes, the decision to give such notice will be subject to the prior approval of the Superintendent of Financial Institutions (Canada) (the "Superintendent") if such non-extension would lead to a breach of the Issuer's Total Loss Absorbing Capacity ("TLAC") requirements.

There is no certainty as to the term to maturity of the Notes after September 25, 2029 because the Extension Feature embedded in the Notes will be dependent on, among other things, future interest rates and market volatility. If extended to the Final Maturity Date, the term of the Notes will be approximately 15 years.

Initial Maturity Date
September 25, 2029 (the "Initial Maturity Date").

**Selling Agent**

Scotia Capital Inc. ("SCI")

Selling Agents' Commission

The Issuer will pay a selling commission equal to 2.00% of the Principal Amount to a holder's investment advisor in respect of the Notes.

Secondary Market

The Notes will not be listed on any stock exchange. SCI, as a market maker, agrees to repurchase the Notes in whole at the holder's request, at the market price determined by SCI in its sole discretion acting reasonably, and subject to the occurrence of any event, circumstance or cause beyond the reasonable control of SCI that has or may have an adverse effect on its ability to maintain a secondary market, as determined in its sole discretion. A holder who sells a Note to SCI prior to the Maturity Date may receive sales proceeds that are less than the Principal Amount of the Notes.

SCI acting as principal, may earn a profit in connection with the acquisition and disposition of the Notes. SCI may, for any reason, elect not to purchase the Notes from any particular holder and may, in its sole and absolute discretion, limit the aggregate Principal Amount of the Notes that will be acquired on any given day from any particular holder and/or defer the purchase of any or all of the Notes from any particular holder. A holder does not have the right to retract or redeem the Notes prior to the Maturity Date.

The sale of a Note to SCI in the secondary market, if any such secondary market exists at such time, prior to the Maturity Date will be effected at a price equal to: (i) the bid price for the Note provided by SCI on the day the request is deemed to have been made, which may be less than the Principal Amount, minus (ii) any transaction charges that may or may not be levied by the relevant selling agent.

There is no guarantee that the bid price for any day will be the highest possible price available in any secondary market for the Notes, but it will represent a bid price generally available to holders as at the relevant close of business. The bid price at any time will generally depend on, among other things, the Principal Amount that is payable on the Maturity Date, the time remaining to maturity, the credit of the Issuer, and the cost of hedging the Issuer's obligations under the Notes. A holder should consult their investment advisor as to whether it would be more favourable in the circumstances at any time to sell the Notes (assuming the availability of a secondary market) or hold the Notes until the Maturity Date. A holder should also consult their advisor as to the income tax consequences arising from a sale prior to the Maturity Date as compared to holding the Notes until the Maturity Date.

Risks and Suitability

Potential investors in the Notes are urged to consult their own legal, accounting and tax advisors in order to determine the suitability of this investment and to consult on any risks or consequences of an investment in the Notes as well as to make an independent evaluation of such investment. Before reaching a decision to purchase the Notes, the investor should carefully consider the risks of investing in the Notes, including the following.

Suitability

An investment in the Notes may not be suitable for all investors. An investor should reach a decision to purchase the Notes after carefully considering the suitability of the Notes and their investment objectives. Neither the Issuer nor SCI makes any recommendation as to the suitability of the Notes for an investor's investment purposes. The Notes may be suitable for investors who: (i) have an investment horizon of up to 15 years, (ii) seek the return of the Principal Amount combined with the return potential of the Coupon Payments, (iii) are expecting interest rates to remain stable, (iv) seek to diversify the fixed income component of their investment portfolios, and (v) are prepared to accept the risks set out in this section, "Risks and Suitability". Investors should consult with their investment advisors before making a decision regarding an investment in Notes.

Non-Standard Investments

The Notes have certain investment characteristics that differ from traditional fixed income securities. Specifically, the performance of the Notes will not track the same price movements as traditional interest rate products. An investor should reach a decision to invest in the

THE BANK OF NOVA SCOTIA**EXTENDIBLE 4.05% FIXED COUPON NOTES (BAIL-INABLE NOTES) (CAD)****Due September 25, 2029 (Unless Extended)**

Notes after careful consideration with their advisors on the suitability of the Notes in light of their investment objectives and the information set out in the above terms and conditions. Neither the Issuer nor SCl makes any recommendation as to whether the Notes are a suitable investment for any person.

Extension Feature

As a result of the Extension Feature of the Notes, the price movement of the Notes will be quite different from that of notes, bonds, and similar debt instruments with the same credit risk and term to maturity. For example, if prevailing interest rates fall, the market price of the Notes may be limited to the price applicable to the then existing Maturity Date.

Investors are compensated for the uncertainty caused by the Extension Feature of the Notes by receiving a higher yield compared to other fixed income investments with a similar credit risk and term to maturity. The Issuer is less likely to exercise its right to extend the Maturity Date of the Notes during periods of relatively low interest rates, or otherwise where it determines that its borrowing cost under the Notes is, or might be, higher than from other available sources. The decision to extend (or not to extend) the Notes will be made solely by the Issuer and may occur at a point in time that is not advantageous to investors. If the Notes are not extended to an Extended Maturity Date or the Final Maturity Date, holders may not be able to reinvest at a rate comparable to the Coupon Rate under the Notes.

Potential Conflicts of Interest

The Issuer, the Calculation Agent and their affiliates may engage in activities and perform functions that could adversely impact the value of the Notes or the amount or timing of receipt of payments under the Notes. Consequently, potential conflicts between the interests of holders and the Issuer's interests may arise.

Changes in Legislation

There can be no assurance that income tax, securities and other laws will not be amended or changed in a manner which may adversely affect the Notes and holders of the Notes.

Credit Risk

The Notes are not eligible for deposit insurance coverage by the Canada Deposit Insurance Corporation. The likelihood that holders will receive the payments owing to them will be dependent upon the financial health and creditworthiness of the Issuer.
